

ENVIRONMENTAL & SUSTAINABILITY POLICY

Date: January 2026

Issue: 2

Approved by: Mark Dolman - Managing Director

portablespace®

Purpose

It is the policy of Portable Space Ltd to maintain an environmental and sustainability management system to meet the requirements of ISO 14001:2015.

This policy sets out Portable Space Ltd commitment to environmental responsibility, sustainable development and achieving Net Zero greenhouse gas emissions. Portable Space Ltd recognises the impact on the environment and are committed to reducing greenhouse gas emissions through sustainable practices across all areas of our operations.

Scope

This policy applies to all operations, employees and contractors across our organisation, and influences our engagement with suppliers, customers and the wider community.

Policy Statement

Portable Space Ltd is committed to operating in a way that safeguards the environment, conserves natural resources and contributes positively to the communities in which we operate. As part of this commitment, we will reduce our greenhouse gas emissions by 5% year on year and will achieve Net Zero by 2050, through the reduction of our carbon footprint and the adoption of sustainable practices.

Responsibilities

The senior leadership team will lead the implementation of this policy, set targets, and allocate necessary resources. All colleagues are responsible for adhering to this policy and contributing to Portable Space Ltd goals.

Our Commitments

Climate action and Net Zero:

- Set and monitor science-based targets to reach Net Zero emissions by 2050.
- Conduct regular carbon audits to measure scope 1, 2, and relevant Scope 3 emissions.
- Invest in renewable energy sources, sustainable products, services and technologies.
- Offset unavoidable emissions through verified carbon offset programs during the transition period.

Environmental Protection:

- Prevent pollution and minimise Portable Space Ltd impact on air, water and land.
- Reduce waste through the hierarchy of Reduce, Reuse, Recycle, and responsible disposal.
- Promote the sustainable use of natural resources.
- Protect and enhance the local biodiversity and ecosystems affected by the operations of Portable Space Ltd.

Sustainable procurement and supply chain:

- Engage with suppliers that align with our environmental and sustainability standards.
- Integrate 'life cycle' thinking into all our procurement decisions.
- Encourage suppliers to adopt sustainable practices and reduce their emissions.

Employee engagement:

- Provide training, information and resources to empower colleagues to contribute to our sustainability goals.
- Promote a workplace culture that values environmental awareness and climate responsibility.
- Recognise and reward innovation in sustainability.

Community and stakeholder engagement:

- Support and collaborate with our local community on environmental and sustainability initiatives.
- Communicate transparently about our environmental performance and progress towards Net Zero.
- Advocate for policies and partnerships that support low carbon, sustainable economy.

Monitoring & Review

Progress toward Net Zero will be reviewed as a minimum on an annual basis.

Key performance indicators (KPI's) will be tracked and reported internally, and where appropriate publicly.

This policy will be reviewed at least annually and updated to reflect changes in legislation, best practices, or Portable Space Ltd goals.

Communication & Availability

This policy is communicated to all Portable Space colleagues and made available to all interested parties on request.
