PRODUCT DETAILS

This 10ft x 8ft corrugated steel Sign-In Hub offers enhanced security and safety for sites by providing a controlled single point of access, ensuring all pedestrian traffic flow is effectively monitored.

It is fitted with steel doors on the 10ft sides and double glazed sliding windows on the other two sides which enables the unit to be used between access roads and between cabins as a small site office/registration to monitor all site entries and exits.

BENEFITS

- Door on each 10ft side of the unit to allow for sign-in to site
- Ideal for security guards, event entry and construction site entrances

This steel Sign-In Hub is available for sale and delivery throughout the UK
