Part Number: S-FPS-2MDD-6005

£1,245.00 (exc. VAT)

£1,494.00 (inc. VAT)

PRODUCT DETAILS

2M FLAT PACK STORE BENEFITS – POWDER COATED

- **FLAT PACKED:** Comprising person-portable panels, these containers are ideal for locations with narrow passageways, low ceilings and locations where a delivery vehicle cannot reach.
- **POWDER COATED FINISH:** 0.8 mm steel with a durable powder-coated finish for improved resistance to rust, weathering, and wear.
- **SIMPLE BUILD:** No need for cranes, forklifts or specialist tools – just a socket set and you're away! (installation service available – see product options below)
- **TWO LOCKS:** Heavy duty, metal container with double locking system. Add a locking bar over the doors for even more security.
- **LINKABLE:** Using flatpack linking kits, same size units can be linked either side-by-side or end-on-end to create a larger internal space for storage.

PRODUCT DESCRIPTION

This 2m Flatpack Storage Container is a compact steel store with double doors and an anti-slip plywood floor.

Finished with a thick, durable powder coated layer in RAL6005 (Moss Green) to prevent rusting and provide long-lasting protection.

The double doors on this flatpack make it ideal for use at home, work, school or on construction sites, to protect tools, materials, sports equipment, garden equipment, outdoor furniture and personal belongings from theft and the weather.

Each part of the container can be moved with a few strong people. Forklift pockets allow for easy moving with a forklift once the unit is assembled.

This flat pack store is available for sale in the UK. Delivery available to mainland UK locations on a shared lorry load with crane offloading (for island locations such as the Isle of Wight, Isle of Man and the Channel Islands, we can deliver to the nearest mainland port).

Green powder coated flatpack containers are also for sale in larger sizes: [3m mid-sized flatpack store](#), [large 4m flatpack store](#) and the [extra-large 6m flatpack store](#).
