Quickfind Code: 1508

Part Number: S-FPS-3MSIDEDD-GALVLM

**£1,400.00** (exc. VAT)

**£1,680.00** (inc. VAT)

### PRODUCT DETAILS

#### SIDE DOOR FLAT PACK STORE BENEFITS – GALVALUME

- **FLAT PACKED:** Comprising person-portable panels, these containers are ideal for locations with narrow passageways, low ceilings and locations where a delivery vehicle cannot reach.
- **GALVALUME:** Fully galvalume steel container – superior corrosion resistance and longer life span compared to galvanised steel.
- **SIMPLE BUILD:** No need for cranes, forklifts or specialist tools – just a socket set and you're away! (installation service available – see product options below)
- **TWO LOCKS:** Heavy duty, galvalume steel body with double locking system. Add a locking bar over the doors for even more security.
- **LINKABLE:** Using flatpack linking kits, same size units can be linked either side-by-side or end-on-end to create a larger internal space for storage.

### PRODUCT DESCRIPTION

This Side Door 3m Flatpack Storage Container is a mid-sized steel store with double doors on the long side and an anti-slip plywood floor. **Standard 3m flat pack stores** have double doors on the 2.2m end, but in some situations, users need or prefer the doors on the long 3m side.

Upgraded superior galvalume steel gives the container a metallic silver-grey finish.

The double doors make it ideal for use at home, work, school or on construction sites, to protect tools, materials, sports equipment, garden equipment, outdoor furniture and personal belongings from theft and the weather.

Each part of the container can be moved with a few strong people. Forklift pockets allow for easy moving with a forklift once the unit is assembled.

This flat pack store is available for sale in the UK. Delivery available to mainland UK locations on a shared lorry load with crane offloading (for island locations such as the Isle of Wight, Isle of Man and the Channel Islands, we can deliver to the nearest mainland port).
