

CONTAINER DOOR STAY

Quickfind Code: 962

Part Number: SALE OF DOOR STAY FOR CONTAINER

£59.00 (exc. VAT)

£70.80 (inc. VAT)

PRODUCT DETAILS

The powder coated container door stay is designed to safely hold a shipping container door open and prevent it slamming shut especially in stormy or windy conditions on exposed sites. It is quickly fitted to container doors without the use of tools and folds away when not in use.

It is constructed from high quality steel and materials.

CONTAINER DOOR STAY – QUICK AND EASY TO INSTALL

- Open the door, stay up and drop it into position
- Tighten the support in place
- Insert the locking pin
- Fasten the door stay clip in place

CONTAINER DOOR STAY – USES

- Ideal for civic amenity sites who need to safely keep container doors open for customers to load materials during opening hours
- Popular with self-storage sites to protect hirers and keep doors open safe in windy conditions
- Any other exposed site where the doors need to be kept open for periods of time for loading and unloading
