Quickfind Code: 913

Part Number: HIRE 32 AMP APPLIANCE INLET SOCKET

£4.00 (exc. VAT) per week

£4.80 (inc. VAT) per week

PRODUCT DETAILS

Normally we supply cabins fitted with electrics with an enclosure that needs to be hardwired by your electrician on site. Sometimes clients prefer to have units connected by a socket – especially when powered by generators.

Most units are capable of being supplied with a 16 amp socket but some users prefer to have the option of a 32 amp socket – compatible with 10mm x 3 core armoured cable.

Please note that you will still need an electrician to connect and check the units on arrival and to be sure that they are correctly earthed due to the fact that units will have travelled by road its possible that electrical connections and items can become disturbed in transit.

FEATURES

- Weatherproof connection upto 32 amps

BENEFITS

- Quick and easy method of hooking up cabins, especially if they will be moved whilst on site
