

CONTAINER SHELVING (FASTFIT BRACKETS) 2 BAYS

Quickfind Code: 1045

Part Number: SALE OF FASTFIT 3 TIER RACKING 20FT

£478.00 (exc. VAT)

£573.60 (inc. VAT)

PRODUCT DETAILS

The fast-fit shelving is designed as a quick and easy to assemble container racking solution, designed to hook on to the internal D rings found on the ceiling of the container.

This set of shelving brackets allows both sides of a 20ft container to be fitted with 3 tiers of shelving as per the CAD drawing shown in the product download section. This set can also be fitted in a 30ft or 40ft container.

The racking gives great use of space and the unique design allows the floor area to be completely free and uncluttered – especially useful if you also have long or wheeled items to store. All metalwork is powder coated for long life.

Please note that due to the bulky nature of the wood to keep the delivery price down the wood shelving is not included. If you do not have access to equipment to prepare the wood please look at the [heavy duty racking](#).

This 2-bay shelving kit is for a single side. Order 2 kits to fit both sides.

20ft Container – Maximum Bays Per Side: 2

40ft Container – Maximum Bays Per Side: 5
