

CONTAINER SHELVING (FASTFIT BRACKETS) 20FT SINGLE SIDE

Quickfind Code: 1045

Part Number: SALE OF FASTFIT 3 TIER RACKING 20FT

£276.00 (exc. VAT)

£331.20 (inc. VAT)

PRODUCT DETAILS

The fast-fit racking is designed as a quick and easy to assemble container shelving solution, designed to hook on to the internal D rings found on the ceiling of the container.

This shelving bracket kit contains 5 Fastfit brackets of 3 tiers to fit along one full side of a 20ft container. Order 2 kits to fit both sides.

The racking gives great use of space and the unique design allows the floor area to be completely free and uncluttered – especially useful if you also have long or wheeled items to store. All metalwork is powder coated for long life.

Please note that due to the bulky nature of the wood to keep the delivery price down the wood shelving is not included. If you do not have access to equipment to prepare the wood please look at the [heavy duty racking](#).

This kit can also be used in 30ft and 40ft containers to have shelving part length of the container.

20ft container – maximum brackets per side: 5

40ft container – maximum brackets per side: 10
