

UPGRADED ELECTRICS PACK – HEATED – 10FT

Quickfind Code: 313

Part Number: SALE UPGRADED ELECTRICS PACK 10FT

£1,220.00 (exc. VAT)

£1,464.00 (inc. VAT)

PRODUCT DETAILS

The 10ft upgraded electrics pack comprises of a consumer unit, one LED light and switch located near to the door and a double socket. All electrical items are surface mounted.

Please note that the heated pack is effectively frost protection using a tubular heater operated by a frost stat. It is not designed to maintain any particular temperature.

In unlined containers we weld tags to avoid puncturing the skin of the container.

In lined units the electrical items are fitted to the lining material.

Please note this to be hardwired to mains via the consumer unit. A 32 amp external socket is not included in this pack.

Please note that significantly heating a container will often create condensation issues.
