PRODUCT DETAILS

4M FLAT PACK INSULATED STORE BENEFITS

- **FLAT PACKED:** Comprising person-portable panels, these containers are ideal for locations with narrow passageways, low ceilings and locations where a delivery vehicle cannot reach.
- **INSULATED:** Intergrated 50mm thick insulation helps protect against a build up of condensation.
- **POWDER COATED FINISH:** Metal steel with a durable powder-coated finish for improved resistance to rust, weathering and wear.
- **SIMPLE BUILD:** No need for cranes, forklifts or specialist tools and with the insulation built-in there's so no extra work! (installation service available – see product options below)
- **LINKABLE:** Using flatpack linking kits, same size units can be linked either side-by-side or end-on-end to create a larger internal space for storage.

PRODUCT DESCRIPTION

This Insulated 4m Flatpack Storage Container has integrated insulation walls, roof and door panels to help protect against condensation.

Finished with a thick, durable powder coated layer in RAL7015 (Slate Grey) to prevent rusting and provide long-lasting protection.

Flat pack insulated steel stores are ideal for use at home, work, school or on construction sites, to protect tools, materials, sports equipment, garden equipment, outdoor furniture and personal belongings from theft and the weather.

Ideal for year-round storage, the insulation helps keep contents at a more consistent temperature throughout the year, from the heat of summer to the cold of winter.

Each part of the container can be moved with a few strong people. Forklift pockets allow for easy moving with a forklift once the unit is assembled.

This flat pack store is available for sale in the UK. Delivery available to mainland UK locations on a shared lorry load with crane offloading (for island locations such as the Isle of Wight, Isle of Man and the Channel Islands, we can deliver to the nearest mainland port).
