Quickfind Code: 585

Part Number: SALE LINKING KIT - 2.3M FOR FLATPACK OFFICE

£280.00 (exc. VAT)

£336.00 (inc. VAT)

PRODUCT DETAILS

The end-on-end cabin linking kit is used for linking flat pack cabins for end on end linking to create a longer narrower space. Any combination of [2.3m \(QF143\)](#), [3.3m \(QF145\)](#), [4.3m \(QF147\)](#) and [6.5m \(QF603\)](#) flatpack offices can be linked in this way.

The linking kit is colour coded to match the cabin being linked. It is also possible to use the same kit to link and join smaller cabins with the white [6m flat pack cabin](#) but please note the colour will not match.

Alternatively, flatpack cabins can be linked side-by-side to create larger open spaces using a side-by-side linking kit. For side-by-side linking kits choose from the following:

- 2.3m – use this product for side-by-side linking – it is effectively the same size
- [3.3m flatpack office linking kit \(QF586\)](#)
- [4.3m flatpack office linking kit \(QF584\)](#)
- [6m flatpack office linking kit \(QF603\)](#)

FLATPACK OFFICE LINKING KIT BENEFITS

- Galvanised and Powder coated for long service
- Create longer spaces to meet your needs or to maximise use of space available on site
- No need for expensive cranes – all components can safely be moved by hand. Invaluable if you have restricted overhead access
- Quick and easy installation

Please note that flat pack cabins can only be linked in one direction at a time (side-by-side or end-on-end).
