**£1,914.00** (inc. VAT)

### PRODUCT DETAILS

Due to popular demand, we now offer the 3m side door flat pack store unit from stock. [Standard 3m flat pack stores](#) have a single opening door on the 2.1m end, but in some situations, users need or prefer the single door on the long 3m side.

This powder coated 3m flat pack storage container is light enough to be moved by hand and the components are small enough to fit through small passageways. No need for cranes, forklifts or specialist tools. Just a socket set – and you're away! Once erected, the unit can be lifted from its lifting eyes with cargo on board.

Ideal for use at home, work, school or construction, to protect tools, materials, sports equipment, garden equipment, outdoor furniture and personal belongings from theft and the weather.

This 3m flat packed store can be linked to another flat packed store unit to form large open plan areas of storage space as required (either side by side or end to end).
