

STEEL STAIRCASE COMPLETE WITH LANDING & HANDRAILS

Quickfind Code: 680

Part Number: SALE STEEL AV STAIRCASE

£1,914.00 (exc. VAT)

£2,296.80 (inc. VAT)

PRODUCT DETAILS

The steel staircase and landing is easily bolted to fixings incorporated into the pedestrian door sill.

Stairs are needed when stacking any cabin from the **steel**, **ECOLink** or **jackleg** range two high.

Although the treads can go in either direction, the direction of travel is normally dictated by the hinge position on the door above. With a left hand hinge the treads will descend to the right as you look at the door. Right hand hinge to the left.

Staircases are painted black as standard. If you would prefer a fully galvanised staircase please contact us for a price.
